TECHNICAL DATA SHEET

NAME: BUG BITS

PART NUMBER(S): SU113-30, SU113-20

PRODUCT DESCRIPTION:

Bug Bits are a powdered insecticide saps the life out of fire ants and other insects by literally draining them of their moisture. Just sprinkle some powder on or around ant hills and other entrances, then as soon as they track through it, the active ingredient silicon dioxide immediately begins to "suck" valuable moisture from their bodies. Best of all, if the insects are to crawl back into the nest, the powder continues to cling to their bodies and contaminates the rest of the colony.

Features and Benefits:

- Biological, highly selective larvicide
- Kills mosquito larvae within 24 hours
- Provides control for up to 14 days in low- to moderate-organic water
- Safe for use around fish, aquatic life, plants, pets, livestock, birds, and wildlife when used according to the label
- Safe for use around fish, aquatic life, plants, livestock, birds, and wildlife when used according to the label
- Does not control adult mosquitoes or adult fungus gnats
- Made in the USA
- OMRI Listed® for organic production

Effective Against:

- Mosquito larvae
- Fungus gnat larvae

Directions: Complete directions on product label

Sprinkle directly onto standing water to control mosquito larvae, using about 1 teaspoon per 25 square feet, and reapply every 7-14 days as needed. For fungus gnats, sprinkle the Bits® evenly over the soil or growing media and water thoroughly; repeat after three weeks if necessary. Always follow the product label directions.

Quantities:

30 OZ 6 UNITS/CASE (SU113-30)
30 OZ 12 UNITS/CASE (SU113-20)
