TECHNICAL DATA SHEET

NAME: CDIFF DISINFECTANT TABLETS

PART NUMBER(S): SKU AB88

PRODUCT DESCRIPTION:

Cdiff Disinfectant Tablets kill C. diff and other organisms in only 4 minutes. The active ingredient, sodium troclosene, delivers bleach-free cleaning power. Unlike sodium hypochlorite (bleach), which quickly loses effectiveness, sodium troclosene is highly stable and releases chlorine more gradually. As a result, the solution created from these tablets remains effective for up to 3 days in a sealed container and for 24 hours in an open container, while bleach solutions typically become inactive within a single day. With a pH of about 6, the solution is gentle on most surfaces yet tough on pathogens, making it ideal for use across healthcare and community settings. Applications include floors, surfaces, hospitals, clinics, and more

Features and Benefits:

- A broad-spectrum disinfectant, virucide and mildewcide
- Effective in both hot and cold water
- Disinfects and protects against odor
- 3 year shelf life
- NSF Certified D2

Effective Against Bacteria, Viruses and Fungus:

- Clostridium difficile (C. diff)
- Carbapenan resistant Klebsiella Pneumoniea
- Klebsiella pneumoniae
- Staphylococcus epidermidis
- Enterococcus faecalis (Vancomycin Resistant)
- Staphylococcus auresus (GRSA & MRSA)
- Poliovirus type 1
- Respiratory syncytial virus
- Pseudorabies virus
- Salmonella enterica
- Trichophyton mentagrophytes
- Acinetobacter baumannii
- Herpes Simplex Virus Type 1
- Escherichia coli O157:H7
- Norovirus
- Canine parvovirus
- Newcastle Disease Virus
- Canine parvovirus
- Canine Distemper virus
- HIV-1
- Poliovirus type 1
- Infectious Canine hepatitis
- Respiratory syncytial virus
- Pseudomonas aeruginosa

Properties:

- Appearance.....White tablet
- Fragrance.....Characteristic
- Specific gravity.....~ 1.0 (in water)
- pH.....5.5-6.5

Directions: Complete directions on product label
To Disinfect: Add 2-6.55 gram tablets to 1 gallon of water.
For C difficile spores: Add 2-6.55 gram tablets to 1 quart of water or 8-6.55 gram tablets to 1 gallon of water. Contact time: 4 minutes.
