

TECHNICAL DATA SHEET

NAME: DRAIN INJECTION SYSTEM (ELECTRIC)

PART NUMBER(S): ST001

PRODUCT DESCRIPTION:

The **Drain Injection System** is an automated pump that provides accurate dosing for grease traps, down drain lines, in grit chambers, basins, lift stations, and more. This system comes with a programmable pump which provides flexibility for dosing schedules. Program up to 24 separate events within a 7-day period. Within each programmed day, each separate event can run a minimum of 1 minute to a maximum of 23 hours and 59 minutes. The control panel includes an integral clock with a battery backup to maintain the time of day as well as a Control Pad with LCD display and cover for wet environments.

Features and Benefits:

- Control Panel with LCD Display and cover for wet environments
- Tube replacement without tools with our patented quick release pump head
- Outputs: 0.81-3.18oz min
- 120V 60Hz, 240V 50Hz
- FKM tube
- cULus for indoor/outdoor use
- 5.4 x 4.4 x 5.9 in.
- (13.7 x 11.2 x 15 cm)
- The pumps provide flexibility for dosing schedules.
- Program up to 24 separate events within a 7-day period
- Within each programmed day, each separate event can run a minimum of 1 minute to a maximum of 23 hours and 59 minutes.
- The control panel includes an integral clock with a battery backup to maintain the time of day.

Use On:

- Drain lines
- Grease traps
- Grit chambers
- Basins
- Lift Stations

Warning:

Warns about hazards that CAN cause death, serious personal injury, or property damage if ignored. **ELECTRIC SHOCK HAZARD.**

Size:

4 lbs.
