## GREEN MAGIC

### THE STRUGGLE

Oh no! There are years of scale buildup on the brass and stainless steel water fountains...

### THE FIX

Green Magic to the rescue! Green Magic is 100% concentrate so you can use it full strength for tough jobs which is exactly what we did. We sprayed it on the fountains, let it sit, and then used a brush and it cleaned up very nicely!

## GREEN MAGIC

### THE STRUGGLE

Oh no! That grout is looking funky!

### THE FIX

**Green Magic** to the rescue! Not only does it clean stainless, brass, tubs, but it also works great on grout! We used **Green Magic** on an entire floor for the top image and only used it in the middle of the floor for the 2 bottom images. You can see how well it cleaned from the original tile.

**AFTER**

## GREEN MAGIC

### THE STRUGGLE

Oh no! This tub has stains that have been there for years...

### THE FIX

**Green Magic** to the rescue! We used **Green Magic** at full strength (did not dilute it) to remove the stains. This product is Eco friendly so it worked on the stains but did not damage the porcelain. The tub looks good as new.

## GREEN MAGIC

### THE STRUGGLE

Oh no! This shower faucet hadn't been cleaned in years...

### THE FIX

**Green Magic** to the rescue! We sprayed the **Green Magic** directly onto the scale and let it sit for a minute or two. We then took a brush and used a little elbow grease to remove the scale. That's all it took. **Green Magic** is eco friendly and go down drains with no problem.
