

## TECHNICAL DATA SHEET

**NAME:** HIGH TEMP PAINT PEN

**PART NUMBER(S):** ZO88-B, ZO88-W

### PRODUCT DESCRIPTION:

High Temp Paint Pen, 1600°F temperature rating. Use on metal, ceramic, or glass.

### Features and Benefits:

- Ideal for marking on surfaces that will be exposed to extreme high temperatures
- Marks made at ambient temperature on non-porous surfaces will become fused and permanent after heat is applied
- Quick drying paint withstands high temperatures (certain colors) up to 2000\_ F (1093\_ C)
- Markers can be used to permanently identify inventory, assemblies, tools, work in progress or finished products while resisting high temperature environments
- Valve action mechanism prevents paint in barrel from drying when the cap is left off
- Heavy duty aluminum body with large paint capacity
- Threaded barrel that can be screwed into a jig or fixture for a continuous marking process
- Bullet tips are replaceable to assure complete use of paint in each marker

### Use on:

- Safe on most surfaces.
- Surface tests should be run to determine compatibility prior to use.
- Temperature resistance varies by color.

### Directions for use:

- Shake well with cap on
- Depress tip to start flow
- Replace cap when not in use

### Available in:

Black and White

### Quantities:

12 UNITS/CASE (ZO88-B)  
12 UNITS/CASE (ZO88-W)
