NAME: INDUSTRIAL TWIST TIE 24" W/LOOP BLACK

PART NUMBER(S): NI303-24C

PRODUCT DESCRIPTION:

Industrial Twist Tie is a flexible reusable tie, easy to bend and twist in every way, made up from durable and elastic core and rubber lagging. Useful for fastening, binding, and more. In contrast to strings, rubber bands or cords can be used repeatedly, very easy to twist and tie. Fasten ladders, cords, pipes and more.

Features and Benefits:

- Strong, bendable wire interior and durable, ridged rubber exterior.
- 24" loopable twistie tie grip, wrap, and secure most smaller items - like charge cords, USB cords, and headphone cords - hundreds of times in hundreds of ways.
- The added feature of an integrated loop on one end allows you to thread the other end through it and pull to cinch and organize nearly anything. Then twist the other end around a handle, zipper pull, anchor point, or key ring. You can also use the loop to hang it from a small hook or tie a line through the hole for quick connections.
- Two or more can also be looped together to create a chain of any length - the configuration possibilities are as endless as the number of little things it will organize, hang, connect, attach, and carry for you.

Available in:
24".
