PINK CADILLAC

GEL ENZYME

ODOR
ELIMINATOR

ELIMINATES
DUMPSTER ODORS

ELIMINATES
DRAIN FLIES

USE IN
GREASE PIT

ELIMINATES DRY
FLOOR ODORS

PINK CADILLAC is a special blend of enzymes, detergent & deodorant containing aerobic and anaerobic bacteria. This unique thickened formula clings to surfaces and does not disipate as quickly as a liquid enzyme. **PINK CADILLAC** digests organic waste such as fat, grease, protein and carbohydrates.

DIRECTIONS FOR USE

SHAKE WELL. GENERAL ODOR CONTROL: To eliminate odors caused by vomit, urine, feces, spoiled food, and animal waste, spray directly on malodor. Do not rinse. The bacteria will ingest the material while pleasant fragrance immediately neutralizes the odor. **DRAIN LINES:** Pour directly into drain line opening. Add product according to chart. Start on lowest floor and work up one floor each day. Once top floor is reached, continue treating only top floor.

GREASE TRAPS: For small traps less than 20 cubic feet, pour 6oz daily into sink or pipeline. For large grease traps use 8-10 oz daily. Do not rinse. Procedure should be done when traps are least used. **SEPTIC TANKS:** For initial treatment use 16oz per 25 cubic feet capacity. Weekly maintenance should include 8oz poured directly into toilet. Flush afterwards. If a septic tank is clogged, add one gallon to the tank through a manhole. **TOILETS, URINALS, DRINKING FOUNTAINS:** ADD 6oz daily applying under either toilet or urinal rim. Allow product to run into drain. Do not apply to drinking fountain spout.

DRAIN LINE	DOSAGE	FREQUENCY
2"	4 ounces	2-4 times weekly
4"	8 ounces	2-4 times weekly
6"	12 ounces	2-4 times weekly

Contents: 32 oz. (0.95L)
