

TECHNICAL DATA SHEET

NAME: SILLY NILLY

PART NUMBER(S): AA891

PRODUCT DESCRIPTION:

SILLY NILLY is a non-staining, dry, pure silicone. It lubricates moving parts, reducing friction and wear. Silly Nilly offers superior lubrication on machinery like gears, locks, hinges, and more. It is formulated with fast-drying solvents to prevent gumming and seals out moisture.

Features and Benefits:

- Heat Stable
- Will not freeze or melt
- Retards corrosion
- Fast drying

Effective Against:

- Sticking
- Squeaking
- Helps To reduce rusting of exposed metal surfaces
- Binding
- Prevents locks from freezing
- Provides smooth and even cutting

Used on:

- Metal-to-Metal
- Rubber
- Lawn mowers
- Molding Equipment
- Aluminum
- Plastic
- Snow blowers and shovels
- Dry Cleaning Equipments
- Steel
- Window Seals
- Thread and Fiber Lube

DIRECTIONS:

Complete directions on product label
Thoroughly clean the surface to be sprayed. Spray a light film with a sweep motion. When used on sticking surfaces work object back and forth. Spray again if necessary.

Quantities:
12 AEROSOL CANS/CASE
