

TECHNICAL DATA SHEET

NAME: TERMIDOR HE

PART NUMBER(S): BA002

PRODUCT DESCRIPTION:

Termidor HE is a water-based, non-repellent termiticide containing fipronil. Its advanced formulation provides improved soil dispersion and allows termite-to-termite transfer throughout the colony.

Features and Benefits:

- Non-repellent termite control
- Genuine Termidor Transfer Effect
- Helps control termite colonies
- Uses less water than conventional termiticides
- Requires shallower treatment depths
- Requires fewer drill holes
- Creates a continuous treated zone around structures

Effective Against:

- Subterranean termites
- Drywood termites
- Dampwood termites
- Arboreal termites

Directions: Complete directions on product label

Mix 1.6 fluid ounces of Termidor HE with 1 gallon of water to make a 0.125% finished dilution for most applications. Follow the product label for complete mixing, application, and treatment requirements. Termidor HE must be applied only by licensed technicians trained in termite treatment procedures.

Size:

79 oz Bottle
