TECHNICAL DATA SHEET

NAME: TERMIDOR SC

PART NUMBER(S): BA001

PRODUCT DESCRIPTION:

Termidor SC is a non-repellent, water-based termiticide and insecticide containing fipronil. Its Transfer Effect allows treated insects to spread the active ingredient to other insects in the colony.

Features and Benefits:

- Non-repellent formulation
- Genuine Termidor Transfer Effect
- Controls termite colonies through contact and ingestion
- Provides long-lasting residual control
- Approved for termite and general pest control
- May be used by trained pest-management professionals according to label directions

Effective Against:

- Subterranean termites
- Ants
- Cockroaches
- Spiders
- Paper wasps
- Earwigs
- Millipedes
- Other pests listed on the approved label

Directions: Complete directions on product label

Mix and apply only according to the current Termidor SC product label. Applications may include trenching, rodding, drilling, sub-slab injection, spot treatment, and approved wall-void applications. Termidor SC is intended for use by trained pest-management professionals. Do not apply to exposed interior surfaces such as floors, walls, or baseboards.
