

TECHNICAL DATA SHEET

NAME: TOO HOT TO HANDLE

PART NUMBER(S): AB19-50

PRODUCT DESCRIPTION:

This drain opener contains extra powerful caustic granules activated with aluminum needles to quickly unclog drains and sewers and keep them free-flowing. When added to water, it releases large amounts of heat and turbulence to liquefy, dissolve and loosen fats, oils and other organic matter that typically clog drains and sewer lines. It offers the fastest action available in a non-acid drain opener.

Features and Benefits:

- Contains heat generating aluminum needles
- Releases tremendous amounts of heat and turbulence to liquefy blockages in drain and sewers for the fastest action available in a non-acid drain opener

Effective against:

- Animal fats
- Hair
- Organic matter
- Vegetable oils
- Paper
- Hard-water soap deposits

Use on:

- Manholes
- Drains
- Food plants
- Packing houses
- Canneries

Properties:

Appearance.....Red pellets with aluminum granules
 Fragrance.....None
 Flash point.....None
 pH.....14.0
 Stability.....1 year
 Solubility in water.....Complete (very reactive)
 Extra caustic

Directions Complete directions on label

Manholes: Pour or shovel 20 pounds into manholes above the clog.

Industrial: Use 1-2 pounds in normal drains. Where grease or organic waste is high, use 3-5 pounds.

Authorizations

NSF L1: Compounds for use in sewage or drain lines.

Quantities:
50 POUND PAIL
